GERMAN QUALITY **ITALIAN PASSION**

The company BONTEMPI produces and sells high quality German surgical instruments (AISI 421 - 440C steels) and has been operating on the market since 1974.
Currently we are present in the main foreign markets, with an absolutely avant-garde production and a strict Quality Control certified according to the EEC and ISO 9001 and 13485 standards.

Our production of instruments includes all the lines of Surgery (Dentistry, Implantology, Paradontology, Orthodontics, Maxillofacial, Aesthetic Surgery, Plastic Surgery, Veterinary and all sectors of General Surgery and Hospital).

The superior quality of our instruments lies in the special martensitic steel alloys of which they are composed, which, associated with an excellent quality / price ratio, finds continuous approval and approval in all markets.

Our complete instrumentation lines, comprising over 11,000 items, are designed and manufactured in Germany with special German steels and are guaranteed for five years from construction defects.

The design and finishing of our surgical instruments are specially designed to help and improve the work of the surgeon, in the constant pursuit of excellence. All the BONTEMPI tools that, according to ours
specific experience are more common use, are available for immediate delivery.

BONTEMPI has a specific service for its customers offering the repair and reconditioning of all its instruments, as well as the replacement of tungsten inserts (Scissors, Port'aghi and Tweezers).
We are also able to customize, with LASER writing, or by means of the Electrolysis procedure, every type of instrument, affixing the name of the Study, of the Department, and / or Name of the Doctor.
